Knowledge of Latin.

# PATRICIO VILLANUEVA

## WORK EXPERIENCE

### Data Scientist, Alten

Milan, Italy | Feb 2021 - Jun 2021

Five months consulting working with the marketing team and directly reporting to the EMEA Marketing Director to build ETL pipelines and dashboards in Tableau.

### Semi Sr. Data Scientist, Digital House

Buenos Aires, Argentina | Sept 2019 - Dec 2020

Reporting directly to the C-Level, I was in charge of the creation of the data lake and the data warehouse. In addition, I worked with the product team and the developers to perform analysis and improve the product. I also worked closely with other areas of the company to build useful dashboards and developed and deploy machine learning models.

### Freelance Data Scientist

Buenos Aires | Jan 2019 - Aug 2019

Working with different clients and industries doing data cleaning and product analysis. I also developed dashboards with the KPI of the business

### Actuarial Data Analyst, MetLife Argentina

Buenos Aires | Sept 2017 - Dec 2018

Part of the Global Actuarial Modeling Development team. The Development team is in charge of constant research, implementation and deployment of actuarial model for the Latinamerica Region.

### Internship in Computer Science at the Faculty of Science's lab, UBA, 2013.

## EDUCATIONAL HISTORY

### Machine Learning Engineer

Udacity | January 2021 - March 2021

Building and deploying machine learning models using AWS SageMaker, Lambda, API Gateway, Cloud Watch & S3.

### Deep Learning Specialization

Coursera, deeplearning.ai | Aug 2020

Specialization in Deep Learning and Neural Networks

### Data Science

Digital House | Feb 2018 - July 2018

6 month intensive data science program which include training to real world cases in data visualization, data exploration, feature engineering, machine learning and natural language processing

### MSc & BSc. in Actuarial Science

Universidad del Salvador | March 2014 - April 2018

Applied statistics and mathematics for creating of statistical models and risk analysis.
